GREATER TORONTO'S COMPLETE CONDO GUIDE

SEPTEMBER 2016

IN THE SPOTLIGHT

On the links for a good cause

On a perfect summer day, Michael Rosset, left, of HOMES Publishing Group, Elvio DelZotto of Tridel and Josh Rosset of HPG enjoyed a round of golf while raising funds for B.O.L.T at the annual Tridel Golf Tournament. Building Opportunity for Life Today (B.O.L.T) was launched by Tridel in 2009 and helps provide awareness and learning opportunities in the field of construction for youth associated with the Children's Aid Society of Toronto. BILD members raise more than \$35,000 for Habitat

Members of the **Building Industry and Land Development Association (BILD)** raised \$35,000 for community partner **Habitat for Humanity GTA** through a scavenger hunt and charity BBQ in July.

Hundreds of industry professionals participated in the seventh annual **Race for Humanity** and the 24th annual **BILD Charity BBQ**.

"BILD has been a proud community partner with Habitat for Humanity GTA since 2003," said BILD president and CEO **Bryan Tuckey**. "With the help of our members, our association has helped build new homes for 13 working, low-income families in the GTA."

"Thank you to people throughout the development industry for the way that you reach out and help us give a hand up to working low-income families throughout our community here in the GTA," said **Ene Underwood**, Habitat GTA CEO. "What you do through your sponsorship made a phenomenal difference, not just for the 13 sponsored families, but for so many more families that you are helping through member donations to our **ReStores**, participating in build days, providing expertise and all the different ways that you help us do what we do every day."

Exciting milestone at Fifth on the Park

Recently, ground was broken at **Fifth on the Park** in **Emerald City**, marking another exciting milestone at this highly successful North York community. The opportunity to live in the incredibly convenient location of Sheppard Avenue East and Don Mills Road is attracting first-time buyers, young professionals, families and empty nesters.

One of North York's largest master-planned communities, Emerald City is immediately recognizable by its public art component — a series of dramatically large cones and smaller cylinders in bright primary colours by Canadian artist **Douglas Coupland**. It is also home to the newly completed **Parkway Forest Community Centre**. This remarkable amenity features a rooftop garden, gymnasium, YMCA-run daycare, outdoor patio/dining area and barbecue terrace.
